ABOUT GCTIA

[Accreditation Department >>>>](#)

Transformation

The Great Commission Theological Institute Accreditation is one of the largest, non-government accrediting groups in the world. GCTIA is a non-profit theological college committed to academic excellence, intellectual freedom, ethical conduct, and moral integrity. GCTIA was chartered as a charitable corporation in the State of South Africa to help establish, support, maintain, and promote the development of the non-traditional, modular, and private tutoring/mentoring methods on-campus, and audio/video-taped, online, and other distance learning methods off-campus. Our registration number is 2019/315829/07.

We foster flexible, experimental, innovative, personalized learning alternatives, as well as traditional post-secondary and graduate-level educational modalities. Our affiliated schools offer degrees that are absolutely legitimate, totally honourable, widely respected, and generally accepted within the Christian community.

Objectives

To serve as a link for spiritual fellowship, mutual encouragement, technical assistance, and professional information-sharing among member schools.

To represent the GCTIA membership before the government agencies and regulatory bodies.

To sponsor a national conference offering seminars, workshops, and an awards ceremony where member schools will be recognized and honored for outstanding achievements.

To establish an independent Accrediting Commission to evaluate and certify Christian colleges and seminaries.

Institutional Policy of Non-Discrimination:

The Great Commission Theological Institute accreditation admits students of any race, color, national and ethnic origin to all the rights, privileges, programs, and activities generally accorded or made available to students at the school. It does not discriminate with regard to any of the above-mentioned categories in the administration of its educational and admissions policies, scholarships, financial assistance, and academic programs.

Why choosing us?

The Great Commission Theological Institute Accreditation organization is a recognized global Institute's accreditation. We are an independent non-profit organization offering an unbiased assessment of your quality achievement in education.

ACCREDITATION PROCESS

[Accreditation process >>>>](#)

GCTI follows a comprehensive accreditation process, allowing institutes to easily acquire accreditation from a leading international accreditation agency without any hassle.

However, please note that in order to accredit any institution, the GCTIA requires proper documentation of the institute's registration and foundation. Following are the eligibility criteria for acquiring the GCTI's accreditation:

1. Institutes must be registered in their region, in accordance with their laws.
2. Institutes, whether private or government, must be functional for at least 3 months.
3. Institutes must have qualified faculty members to guarantee their commitment towards providing quality education.
4. Institutes must provide all the documentation asked by the GCTIA consultants for review. Failure to do so will result in disapproval of the application.

The following is the process of accreditation followed by the GCTIA:

1. Institutes that are willing to acquire the GCTI's accreditation will have to submit their application for review with the required documentation. The GCTIA consultants will guide you through the entire process and the required documents to ensure the process goes smoothly.
2. GCTIA Global Inspection Committee will visit the institute online to verify and evaluate. The Global Inspection Committee Members (ICM) will ensure all the information provided in the initial application is correct and at the same time will evaluate if the institute meets the GCTIA's criteria. In case an institute does not meet our criteria, we would give out instructions on how they can improve and be eligible.

3. After the on-site inspection of the institute, a summary is submitted to the GCTIA Council by our Global Inspection Committee, upon which the GCTIA decides whether or not to provide accreditation to the institute.

Become Accredited

Becoming accredited can seem to be challenging. But with the help of our experts and resources, it can be achieved. Accreditation can bring many benefits to your organization.

Application For The Gcti Accreditation

Accreditation Requirements:

The institute applying for accreditation must be offering authorized courses.

The programs/degree offered must be provided independently from your institution, without any affiliation with another name or organization.

Get GCTI's Accreditation Seal & Certificate:

When you acquire GCTI's accreditation, you are awarded with formal certification and the GCTIA's official seal, which you can place on your digital and print marketing collaterals to prove you are an internationally recognized institute.

EVALUATION STANDARDS

[Evaluation standards >>>>>](#)

Great Commission Theological Institute Accreditation (GCTIA) brings world-class education institutes and organizations closer together to amplify the education standards. The GCTIA collaborates with renowned organizations to boost engagement, innovate, and expand the learning and business standards, universally. GCTIA adopts a stringent accreditation process, through which it works towards the attainment of its ultimate goal, boosting education standards. With an ever-growing community of schools and other education institutes, GCTIA has become a reliable entity in the business world.

Great Commission Theological Institute Accreditation has acquired a stringent accreditation process that evaluates an institute based on different factors. The process is primarily based on international standards of education and evaluation to ensure quality education. The method of evaluation at GCTIA keeps transforming by adopting necessary changes that come with time. These improvements are implied so that a modern system of assessment can be followed.

Continuous improvement thrives at GCTIA, not when it comes to its own work culture but by affiliated institutes as well. Before awarding accreditation to an organization, corporation, professional, college, or institute, GCTIA analyses its mission, business strategy, student support, work culture, faculty nature, learning, course makeup, academic culture, and student-teacher engagement.

These standards are incredibly rigorous, and an institute must fall under the criterion to receive accreditation from GCTIA. This stringent process ensures professionalism and smooth operation for both the accreditor and the institute acquiring a certification.

As for the process, any school, institute, college, or organization offering a bachelor's, undergraduate, or relevant degree can apply for GCTI accreditation. To continue this process, an education institute may want to fill out an application to establish accreditation eligibility. Once the application has been approved, the institute is evaluated for its educational standards, as mentioned earlier. Upon accreditation, the institute becomes an affiliated part of GCTIA that has to go through a continuous improvement process every five years to ensure quality education standards.

PROGRAM ACCREDITATION

[Program accreditation >>>>](#)

Our accreditation services are the process by which the professional training program in various fields is evaluated in accordance with the standards set by the GCTIA. When we verify that the training program complies with these standards, our accreditation for the program certificates is granted.

The accreditation process aims to prove that the training program obtained has met the international standards set by us, which leads to an increase in the credibility of the training program by providing the GCTIA monitoring.

GCTIA must accept a training program or training material before it can be accredited. This approval indicates that the training is of exceptionally high quality and that the learner will gain new skills due to the training.

One of the most significant advantages of accredited training by the GCTIA is your students' opportunity to earn credentials. Needless to say, these can be a huge motivator for your learners because they will witness that the training is beneficial to them.

Using the GCTI accredited training also ensures that your program receives external quality assurance.

Before any certificates are issued, your students must be evaluated against the GCTI accrediting criteria. You can be confident that you're effectively developing your learners'

skill sets if they're satisfied with these assessments.

GCTIA can sponsor and supervise training programs in different fields. And issue certificates of completion and completion of training programs that meet our training standards. It is also possible to sponsor complete professional programs with multiple stages.

The issuance of the program certificate by GCTIA means that this program has a state certificate, leading to an increase in the value of the program and an increase in the professional value of the trainees and participants in it.

ACCREDITATION PACKAGES

[Accreditation packages >>>>](#)

At GCTIA, we believe that every institute is different, in terms of its size, financials, and nature. Some institutes have multiple branches internationally while some are online institutes. In this context, each institute has its own requirements when it comes to accreditations or memberships. One institute might require international coverage and publicity while the other would only want to focus on a specific region. Keeping this in mind, GCTIA has designed its accreditation packages to suit the needs of any type of institute around the world. Following are the accreditation packages we offer:

Gold Accreditation

Institutes looking for global recognition and publicity should opt for our 3-Year Gold Accreditation Package. This 3-year accreditation package will assist this Institute in being featured in our Monthly Magazine with ads and interviews, being published on our blog and social media pages, and being able to work with our consultants to improve their digital and physical presence in a period of three years.

Certificate Accreditation Program

**Make Your Certificate Mean More
to the Potential Students, to the
Certificate Holders, to the
Employers, and to the Regulators!**

Organisation

Thousands and thousands of certificates are issued to students each year in a broad range of disciplines. But with a lack of nationwide regulation, oversight, or monitoring consistently applied to all education and/or training bodies that offer certificates, and no nationally recognized criteria to evaluate the quality of these programs, consumers are unclear about the meaning of the certificates.

Specific guidelines are needed to differentiate among certificate programs that have varying levels of rigor and to determine how they differ from personal certifications.

GCTIA Accreditation Organisation was launched in 2021 to accredit the organizations that issue the education and training certificates for Theological Colleges.

The GCTI Accreditation Organisation provides the neutral, third-party attestation that a certificate program meets an Educational Standard and provides the quality benchmarks for the design of future certificate programs.

With this program in place, employers and workers alike can tell that this certificate stands for something of value which helps to boost the overall quality of the Education workforce.

Continual Improvement

Through GCTI Accreditation Organisation, all the Bible Colleges can demonstrate their commitment to continual improvement of their certificate programs, helping to boost the confidence of consumers and employers who rely on education and training certificates nationwide.
